

Together for success

Our efforts are focused on education in Estrie, but our goal is larger: the social, economic, and cultural development of our communities.

R3USSIR, which resulted from the merger of the *Table estrienne de concertation interordres en éducation (TECIÉ)*, the *Partners for Educational Success Estrie (Projet PRÉE)*, and the *Table estrienne de concertation formation-emploi (TECFE)*, is a regional consultative body committed to mobilizing inter-sectoral players to create initiatives, projects, and linkages that promote educational success and school perseverance, and optimize the relationship between supplying training and the needs of the labour market.

MISSION

To be a regional leader mobilizing stakeholders from all sectors to make education a priority lever for the social, economic, and cultural development of communities in Estrie.

VISION

To have education be recognized as a priority lever, allowing us to act together for the development of individuals and Estrie..

The success of all:
this is what challenges us,
motivates us,
and excites us.

OUR PROJECTS

A consolidated offer in educational success, school perseverance, and workforce training

1. Educational success and school perseverance

R3USSIR is launching several projects to bring to life and support initiatives related to educational success and school perseverance across Estrie.

Discover our projects:

- Employers committed to educational success
- Summer strategy
- Literacy
- Transition to kindergarten
- Thinking big for our children
- *Parent Estrie*

2. Workforce training

R3USSIR is committed to projects that develop a qualified workforce in response to the current and emerging needs of the Estrie labour market.

Discover our project:

- Reducing recruitment difficulties in Estrie: ten targeted professions

Toolkit

The R3USSIR toolkit is a platform that brings together a wide variety of resources designed to provide tools to stakeholders in all areas who are taking action to promote educational success and school perseverance and to optimize the matching of training and the needs of the workforce.

- Support for local initiatives
- Informative content
- Data and portraits
- Turnkey tools
- Webinars and conferences
